Skills: Machine Learning, Data Analysis, Data Cleaning, Data Visualization, Database Design, REST APIs, UI/UX Design
Interests: Badminton (Former School Team Captain), Football (Soccer) Analytics, Biking, Exploring New Music

PROJECT EXPERIENCE

xG Modeling in Football **Python, pandas, scikit-learn**

- Building and iterating on a machine learning model to estimate goal probability from shot location, angle, and situational features
- Retrieved and cleaned historical match and shot data from past seasons to build a training dataset for a custom xG model

ShelfLife **MySQL, Streamlit, Python**

- Designed relational database schema with linked tables and foreign keys, and generated realistic mock data to support application testing
- Identified and resolved data integrity issues in SQL tables to keep the application's data accurate
- Reviewed and debugged a Streamlit analytics dashboard as part of a team, fixing functional bugs in the reporting page

Economic Impact of El Salvador's Gang Crackdown **Independent Research**

- Analyzed up to 23 years of World Bank, IMF, and ILO data across 4 economic indicators to assess the impact of El Salvador's 2022 gang crackdown
- Concluded reported economic gains could not be attributed to the policy by evaluating the reliability of government statistics

WORK EXPERIENCE

Northeastern Electric Racing Boston, MA
Software Product Team Member *Jan 2026 – Present*

- Designed high-fidelity Figma mockups for multiple features of the team's main data dashboard using user-centered UI/UX principles
- Improved dashboard usability by gathering user requirements and live feedback from a cross-functional team and iterating on designs
- Secured board approval for design concepts by presenting them to club leadership

Knack Boston, MA
Peer Tutor *Feb 2026 – Jun 2026*

- Tutored students in financial accounting and Excel-based calculations, adapting explanations to each student's level of understanding
- Maintained a 5-star rating across student reviews by delivering clear, effective instruction

My Creative Factory Singapore
Product & Client Management Intern *Jun 2024 – Jul 2024*

- Translated requirements from 4 clients into customized product deliverables through pitching and briefing sessions
- Informed product decisions by conducting competitive analysis and compiling findings into internal reports
- Produced and edited marketing videos and personalized client content in DaVinci Resolve, earning enthusiastic client feedback
